TunePrompt

Prompt Engineering

Broken Ideas? We Fix That.

Type your rough idea and TunePrompt transforms it into 3 perfectly engineered AI prompts you can use anywhere.

Why TunePrompt?

TunePrompt is a secure Android application designed to help content creators generate, save, and manage professional grade prompts for video editing, automation, and SEO. While general purpose AI models are broad, TunePrompt is purpose built. We provide 40+ specialized categories to eliminate creative block, a dedicated dashboard for your workflows, and optimized prompt engineering to save you time.

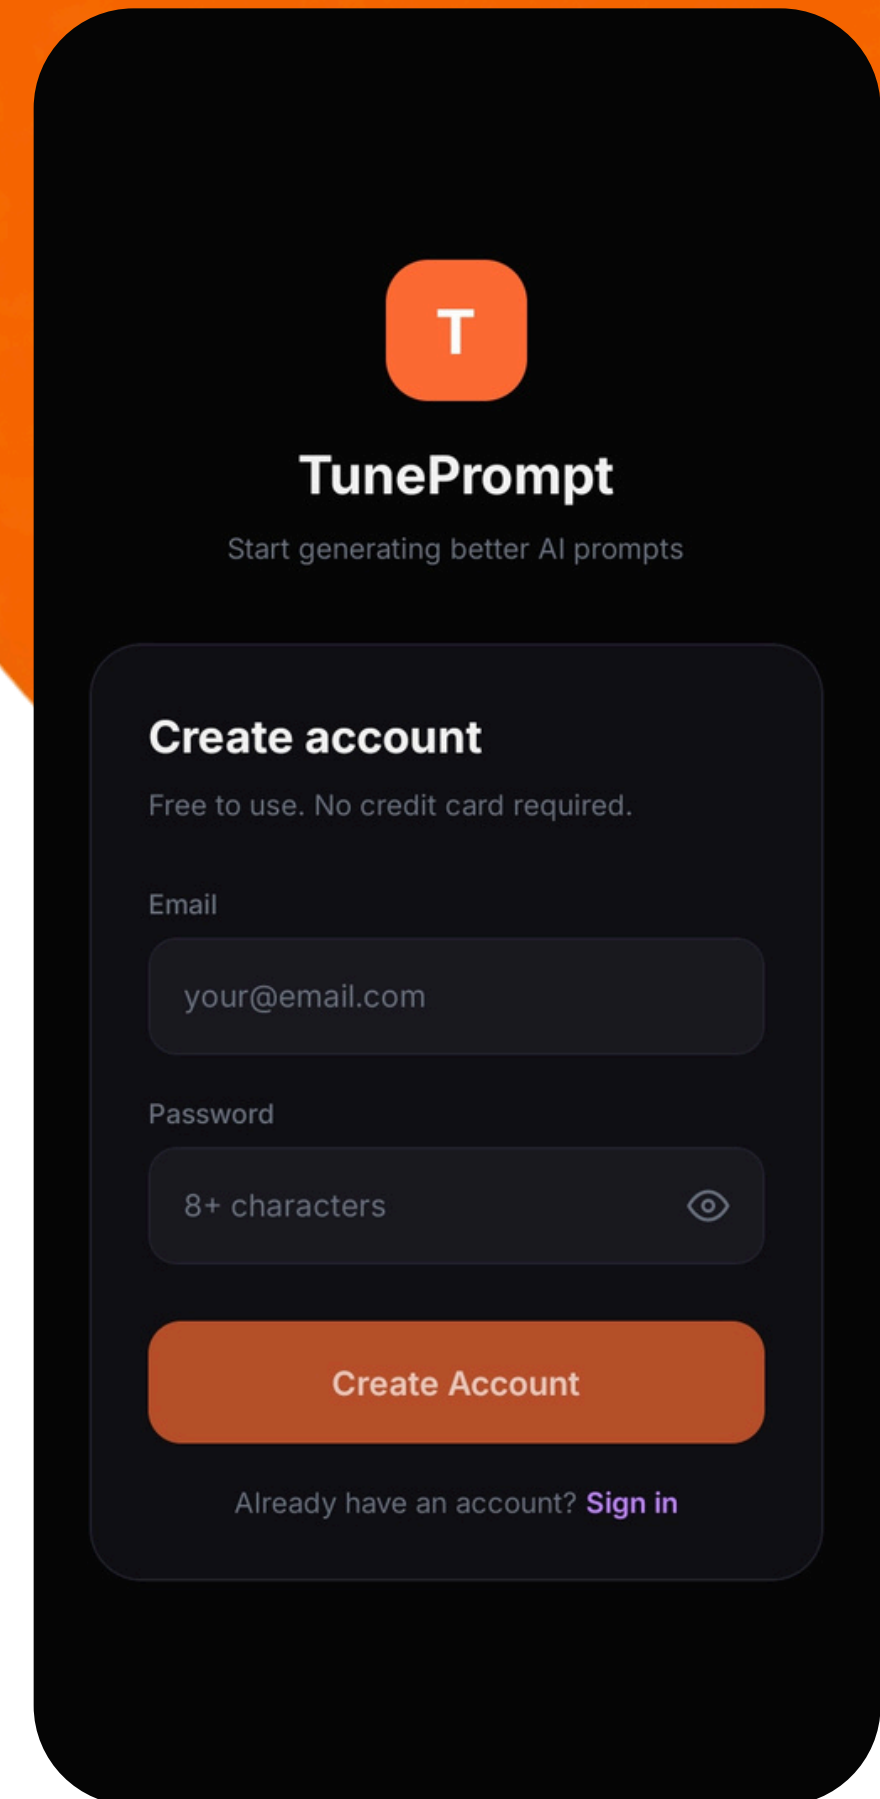

TunePrompt User Manual

Getting Started

Download the APK and enable
'Install from unknown sources'
in your Android settings.

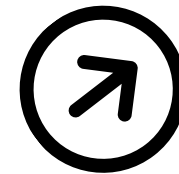

The image shows a smartphone screen with the TunePrompt app interface. At the top is an orange square logo with a white letter 'T'. Below it is the text 'TunePrompt' and 'Start generating better AI prompts'. The main section is titled 'Create account' with the subtext 'Free to use. No credit card required.' There are two input fields: 'Email' with the placeholder 'your@email.com' and 'Password' with the placeholder '8+ characters' and an eye icon. Below these is an orange 'Create Account' button. At the bottom, it says 'Already have an account? [Sign in](#)'.

TunePrompt User Manual

Generating Your Prompts

SignUp and Start your creative process in three steps:

1. Choose Your Category: Select from Video Editing, Automation, or SEO.
2. Enter Details: Input your specific topic or requirement.
3. Tap "Generate": Our integration with Groq AI instantly creates high-quality, professional prompts.

 Video Description

Describe your rough idea

e.g. A video teaching how to edit on mobile for free

 **Generate 3 Prompts**

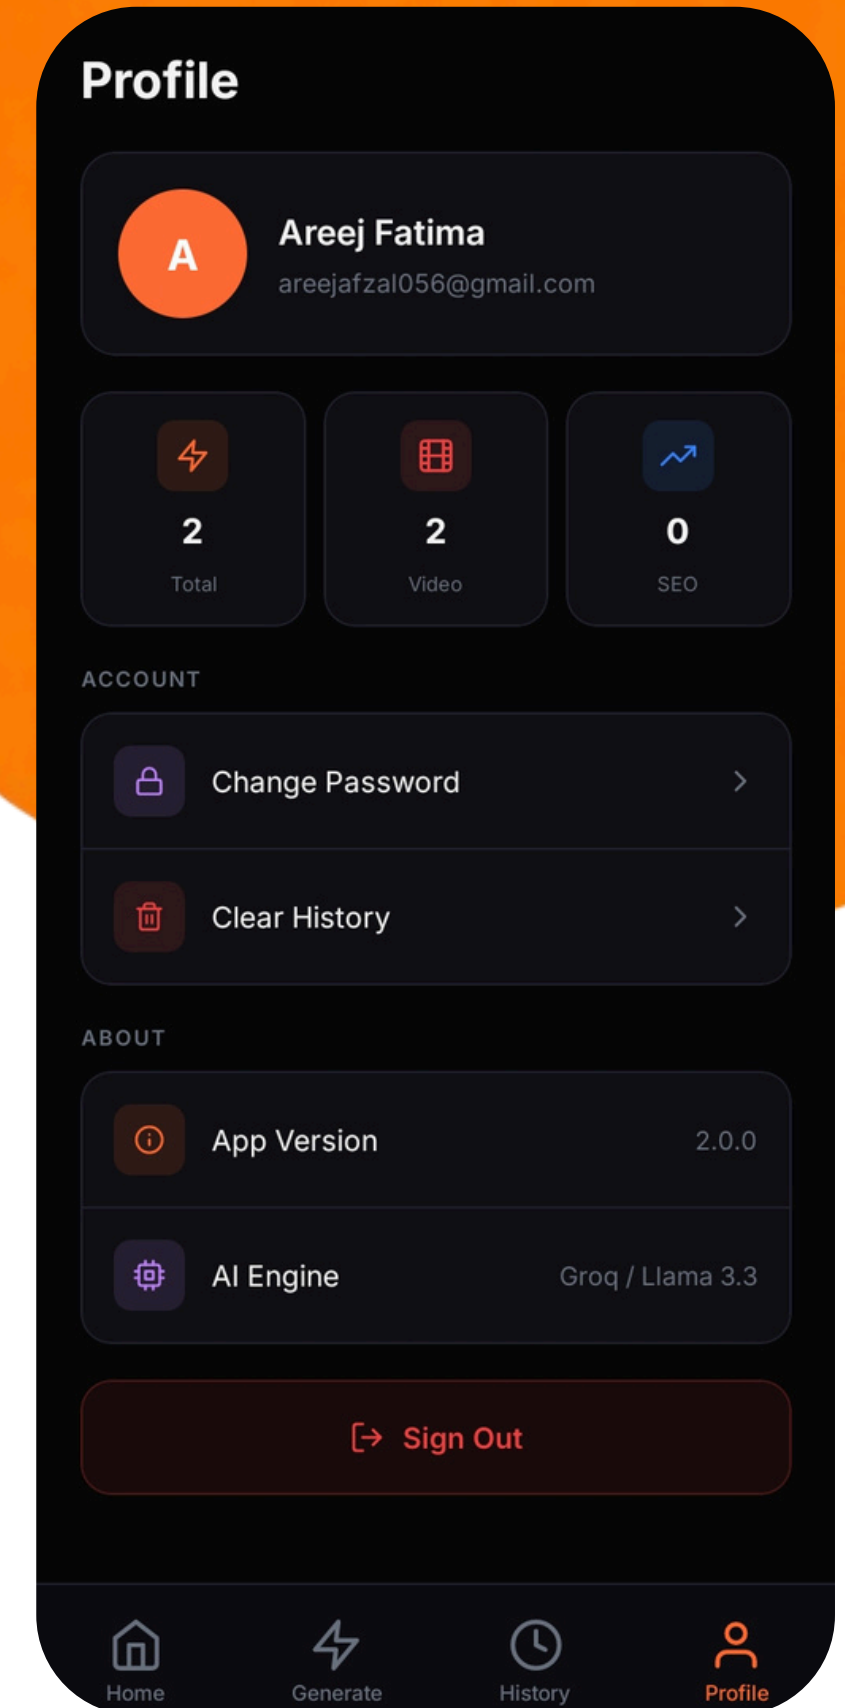

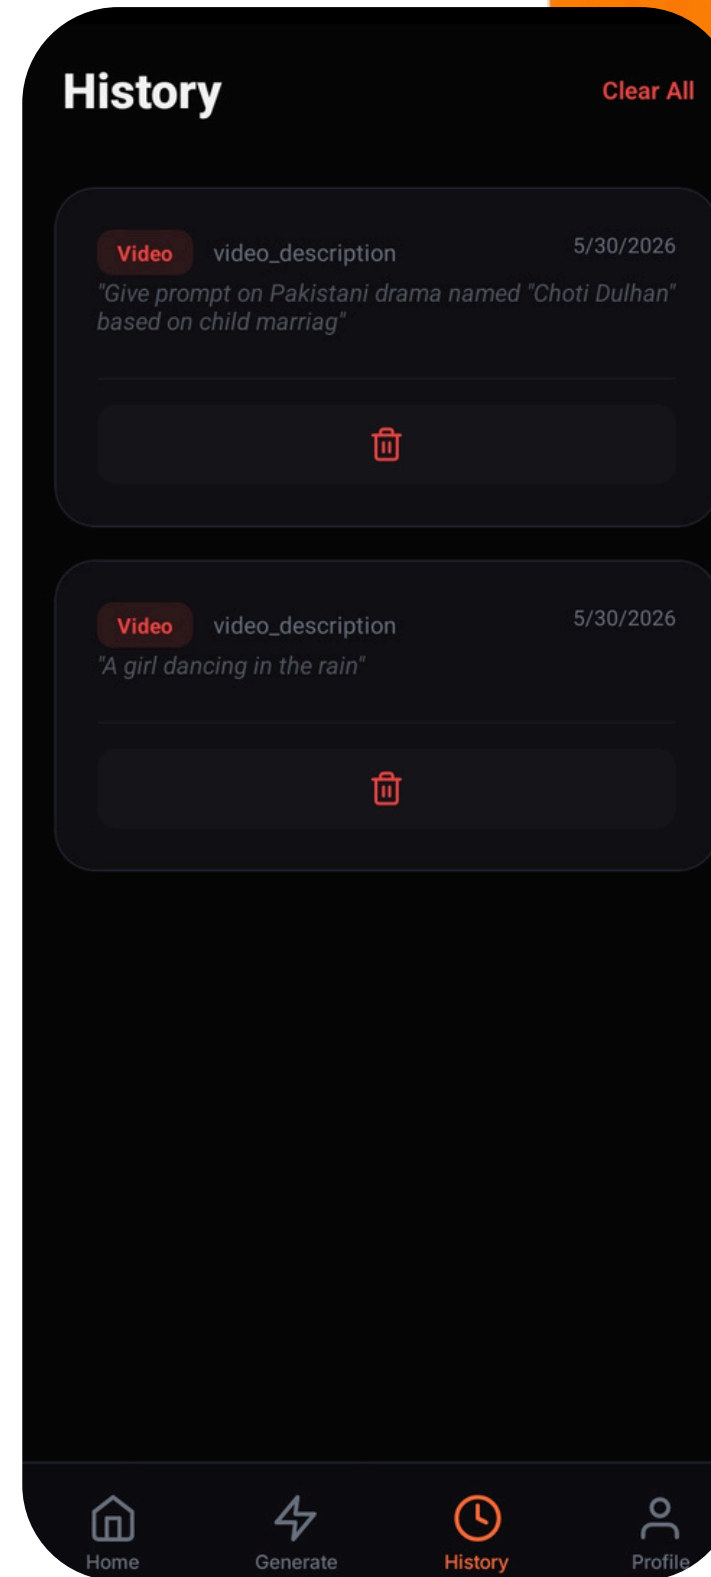

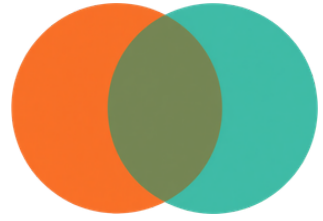

Managing Your Work

History & Profile

Your History: All generated prompts are saved automatically. You can share, copy or delete previous entries to keep your workspace organized.
